

Rob's Rapport

All internal moves associated with our change to a tri-Borough Police Command have now been ratified and have either taken place or will take place between now and the go-live date in June.

As already explained in previous Communicators, you will see no change at the coal face but there will be fewer bosses. We have already reduced the Neighbourhood inspector posts from 3 to 2 and by next month it will be just one. I can now confirm that the one remaining Neighbourhood inspector will be me - if you were hoping to see the back of me then I am sorry to disappoint. I am sticking around for a while longer yet.

Over the page are all the contact details you will need to speak with your local team or sergeant.

Inspector Rob Bryan

Can you help me?

My new role will have an increased workload. That is fine as I like a challenge but some things will have to be done differently. I will need your help to ensure I am given the time needed to manage the increased portfolio.

For example I would ask that when you communicate with us, you only copy in those people that need to be copied in. Please don't copy me in to an exchange if the only reason for doing so is to hopefully get a quicker response from the intended recipient. Continue to communicate with your local teams and escalate to their sergeant if you need to. If that doesn't get a satisfactory outcome then please raise with me, but only then. I will need every minute of my

working day and the less time I am tied to my emails the better. Thank you in advance.

Virtual Ward Panels

Each Safer Neighbourhood Team has a flesh and blood ward panel made up of members of the local community who meet regularly with their local officers and help direct local police activity.

We understand that in this day and age such a time commitment is not possible for everyone. But you can still do your bit to help focus your local team's activities by joining our virtual ward panels. All you have to do is send an email to your local Safer Neighbourhood Team (contact email addresses over the page) saying you want to join their virtual ward panel. They will add you to their database and every few months you will be sent a link to a short survey. The results of the survey will be used by the officers to make sure they are focusing on the problems that matter to you.

INSPECTOR

That leaves one inspector to oversee local policing in Hillingdon. Can I ask that you don't copy me in to every email chain as I am duty bound to read them and currently it happens a lot. I trust my sergeants.

I am there if you need to escalate a concern once you have given your local sergeant a fair crack at the whip.
